The officials of the Detective Bureau are convinced, they say, that Edward Park, the man arrested in Christiansand, Norway, on Sunday, is guilty of the theft of \$10,000 to \$15,000 worth of jewelry from the house of James Jackson Higginson at 16 East Forty-first street. Park was a tutor in the family for four years, preparing two of Mr. Higginson's sons for college, and the family was reluctant to believe that he was guilty, even in the face of strong evidence presented to them by the Headquarters

detectives. The robbery occurred on July 1 last. Mr. Higginson, who is a banker at 25 Broad street, was out of town and so was his eldest son, James J. Higginson, Jr. The family at home consisted of Mrs. Higginson, ber daughter Dorothy and a sixteen-yearold son. Park, the tutor, who came to the Higginsons excellently recommended and who has a doctor's degree, also lived in

Mrs. Higginson and her younger son had just returned from Ardsley-on-the-Hudson. They were at lunch on July 1 when the robbery took place. Somebody apparently familiar with the house broke into Miss Dorothy Higginson's room, forced an escritoire and took a diamond necklace, a diamond brooch, rings, two silver cigarette cases and pins valued by the family at more than \$10,000. Several of the pieces were old family heirlooms and had a value apart from their intrinsic

The thief used a screwdriver taken from the workshop of the younger son of the family to force the door of Miss Higginfamily to force the door of Miss Higgin-son's room and to break into her escritore. It was apparent at the time that whoever stole the jewelry was entirely familiar with the movements of the family and selected a time when he would be least likely to be disturbed. The Higginsons were unable to furnish the police any clues and were not disposed to talk about the robbery.

Detective Sergeant McCafferty was as-Detective Sergeant McCafferty was assigned to the case. He searched the pawnshops, beginning with the bigger ones on the Bowery. With the occasional pure luck that supplements the genius of Headquarters sleuths, McCafferty found in a Bowery shop one day recently a necklace that answered the description of the one stoken from the Higginson house. He questioned the pawnbroker, particularly about the appearance of the man who had pawned the necklace. The pawnbroker described the man. He was, according to the pawnbroker, over 8 feet tail, of light complexion, and looked like a student or a writer.

Meanwhile, in another Bowery pawnshop, two silver cigarette cases and a diamond brooch belonging to the Higginsons had been found. McCafferty took the group picture to pawnbroker No. 2, and he picked out park as the man who had pawned the artistic of the pawned the particles.

Park as the man who had pawned the articles.

McCafferty placed his information before the family. They refused at first to believe that Park could be guilty, and accepted the facts with the utmost rejuctance. The tutor meanwhile had sailed for Europe, leaving here on July 5 a passenger on board the Scandinavian-American liner United States, bound for Christiansand, Norway. The day before the first pawnbroker identified Park's picture the tutor, according to Deteotive McCafferty, asked for leave of absence, engaged passage in his own name and left the country.

Police Headquarters put the facts they had in possession of the Christiansand police and they arrested Park as he stepped off the United States on Sunday. As a result of the arrest the New York police results of the arrest the New York police re-

The arrest, according to Police Headquarters, was brought about at the direct request of the State Department, acting on a notification by Gov. Higgins. The Governor has since communicated with the Acting Secretary of State again and the Norwegian authorities have been asked to hold Park.

Revolution-Owner Wants to Close It. Vice-Chancellor Garrison announced in lersey City yesterday that he will decide on July 31 the application for an injunction to restrain Howard P. Frothingham, a loan broker of 2 Wall street, from placing barb wire obstructions and an armed guard on the old Cannon Ball Road in Pompton

Mr. Frothingham bought a large estate through which the old road passes from the late Jacob S. Rogers, the locomotive manufacturer, and proceeded to enclose manufacturer, and proceeded to enclose lighth a barb wire fence. The Cannon Ball road had been open to the public from 1840, and persons who had used it did not take kindly to the new arrangement.

The road got its name from the fact that during the Revolutionary War an old Tory named Ryerson made cannon balls at Pompton and carried them over the road to the British at New Brunswick.

If you want a cigarette that contains

pure Turkish tobacco with a blend that is new and delicious: a smoke that is mild and satisfying, that gives a full pleasant flavor and a pleasant after-taste, try

MURAD CIGARETTES

the latest and best production of Allan Ramsay, the recognized authority on Turkish tobacco, the man who has made for sixteen years the private cigarettes of the Turkish court.
